Head Quarters, Simla, 1st June 1892

415 Under instructions from the Government of India, the following rules for the grant of a special bounty to men of the garrison artillery, including mountain and heavy batteries, and of the six battalions of Infantry named in the margin who would in ordinary course return to England for transfer to the Reserve during the next trooping season, and who are willing to extend their service in India, are published for information and guidance. These rules will have temporary operation only.

2 All men of the above corps of not less than six years' service who are willing to extend their service with the colours for a further period of one year will receive a bounty of Rs. 70, and for an extension of two years or for any further period, Rs. 140. This further period of service will be completed in India and will commence after the expiration of the extra years' service with the colours due from a soldier serving in India.

3 The grant of bounty is conditional on the men signing an agreement to accept for the completion of their extended service transfer to a corps in India, but as regards infantry this condition will only apply when their own battalion may leave India without being relieved by a battalion of the same regiment. The extension of service will be carried out on Army Form B 221.

4 The bounty will be paid to each man at once on his signing the required agreement, or at his option, placed to his credit in the Regimental Savings Bank. Advances for this purpose may be drawn from the Civil Treasury on the authority of a Station Order, and adjusted hereafter with the Military Accounts Department.

5 Commanding Officers should be instructed to report to the Adjutant-General in India when any man who has extended his service under the provisions of this Order has returned to England.

N.B.—The Regulations of the Assault at Arms having been carefully considered and a copy forwarded to each judge, must be closely followed. This can only be done by careful study beforehand.

Given on the spot as absolute and final, and no appeal against, nor interference with, their decision will be permitted under any circumstances. Any judge may send the combatants to corners. Any one of three judges may be appointed umpire by the other two.

9. Judges are authorized to withhold prizes in all cases in which the competitors do not exhibit a fair degree of excellence. In mixed combats one Cavalry or Artillery, and one Infantry Officer will judge, and will select their umpire, who may belong to any arm of the service.

10. In the Artillery Gun Driving Competitions, Cavalry and Artillery Officers only will be judges.

11. Half the travelling expenses to and from Poona for five men per Regiment or two per Battery competing in the Assault at Arms (Volunteers excepted) will be paid on application to the Honorary Secretary, Assault at Arms Committee, Poona. 14. Competitors for two or three events, and may be called on to elect not in their places when called may be struck out of that competition.

15. The entries for events Nos. 7, 8, 10, 11, 12, 13, 14, 15, 16, 17, 19, 22, 28, 29, 30, 31, 32, 33, 34, 37, 38, 45, 46, 47, and 48 (with list of events), have been necessarily limited to the number of men therein mentioned. These should be determined regimentally and their names submitted as directed in para 3.

DRESS.

16. In the various competitions for tent pegging, lime-cutting, and combats, drill order, serge clothing, without arms, will be worn. In

the combats, Sword *versus* Sword, Lance *versus* Lance, Sword *versus* Lance, Sword (mounted) *versus* Bayonet, and Lance *versus* Bayonet, a mask and leather jacket will be substituted for the uniform jacket and field dress. In combats, Sword (dismounted) *versus* Bayonet, and Bayonet *versus* Bayonet combatants must wear, in addition to leather jackets and masks, proper pads and aprons.

17. With the exceptions mentioned in para 16, all competitors must be in uniform, but suitable dresses and Gymnasium shoes are permissible for races and gymnastic exercises only.

18. Each combatant must wear a distinguishing color on the left arm (the first of each pair red and the other yellow).

19. On the day appointed for the distribution of prizes, prize-winners must be properly dressed with waist belts and side arms.

COMBATS

20. The combatants will be drawn by lot in pairs, and the ties will be arranged in the same manner. Infantry, Garrison Artillery, Acting Bombardiers of Field Artillery under 6 months' service as such, and Gunners of Field Artillery will use the bayonet. With these exceptions the first named weapon in each competition will be taken by the first man of each pair, the other weapon by his opponent.

21. No competitor shall be entitled to draw two bytes successively. Rules for final ties have been issued. (See para 61.)

22. In all combats, in cases of repeated counters, it shall be optional with the judges to put each competitor alternately on the defensive for two bouts each. Should the attacking file in these cases succeed in getting in a hit, he shall score one point, but should the defending file, after warding the first attack succeed in getting in a hit he shall score two points. In all mounted combats the horses must be kept on the move to the satisfaction of the judges. (See para 27.)

23. A corner will be assigned to each mounted combatant at which they will take post (facing each other) on entering the Arena. They will then obey the instructions of the judge, each cantering around the Arena till the order for attack is given. After a hit, each combatant will change over to the opposite ground at the word "corners." The judges may at any time stop the play if there is any doubtful hit or the men get into such a position that it is better for both men to return to their ground. (Read also para 8.) Competitors will not cease fighting unless ordered by a judge.

24. All competitions in Fencing, Single Stick, Bayonet *versus* Bayonet, Sword *versus* Bayonet (mounted or dismounted) Sword *versus* Sword, Sword *versus* Lance, and Lance *versus* Bayonet will be decided by the best of three cuts (or thrusts), except in final ties, which will be decided by the best of five. All thrusts must be delivered so that the point of the weapon strikes the body, and cuts must be given, when sticks are used, with the part of the blade nearest the hilt. In the sword in Sword *versus* Bayonet (dismounted) the thrust is not permitted.

25 If a competitor is unhorsed in a combat, one hit will be scored against him, but his adversary must not wilfully strike him while unhorsed, under penalty of disqualification

26. In all competitions, except fencing and single-stick combats, it scores a hit against the one who loses his weapon except when the combatant makes a disabling hit before losing it, in that case the hit got is not scored, but is given as a counter

27 A combatant shouting or wilfully striking his own or opponent's horse, or wilfully striking his opponent below the jacket in mounted or mixed work, will be disqualified for that event. The pace should not be too fast, but with the lance must be moderate (See para 22)

28. In all other respects these combats must be governed by the rules of fencing, as given below, excepting para 33 which does not apply.

29. In the combats of Sword (mounted) *versus* Bayonet, and Lance *versus* Bayonet, the mounted man will take post at one end of the arena, and the dismounted man in the centre. Neither will attack until one of the judges has given the word

30 Lances must be used and held in the proper way, i.e., hand to hold sling.

31. In combats, Officers must ride their own registered chargers. In case of Infantry Officers, Officers may ride any horse that is not a Troop horse

32 No Officer will be allowed to ride a Troop horse in any competition

RULES OF FENCING

33 (The arena for fencing will be 24 feet by 6 feet).

In taking guard the adversaries must first cross their foils and retire one step, so as to be out of distance before commencing play. Any hit given before this is done is deemed a surprise and does not count. This rule must be strictly observed, not only when commencing play, but on every occasion after a hit or halt has been called

34 Hits are counted good only when fairly made on the target which will be on the right breast of each fencer and with the point fixed, so that if delivered in action it would penetrate the body. If a man hides the target by stooping or other contortion, a hit on any part of the body (back or front) between the neck and hip is good

35 When two men hit together the hit belongs to the man who lunged. If both lunge it is a counter, and the hit belongs to neither

36 When the *Remise* † or *Redouble* ‡ and the *Riposte* are made together, the hit is reckoned in favour of the fencer making the *Riposte*.

37 No time thrust is counted good unless it is decidedly on before the attack

38 A disarm counts nothing

† *Remise* A repetition of the thrust before recovering to the guard

‡ *Redouble* A second attack made without parrying the *Riposte*

39 If a hit is received *immediately* after a fencer has lost the grasp of his foil, it is considered fair but if sufficient time has elapsed for his adversary to perceive his discomfiture before the delivery of the thrust, it counts nothing

40 The use of the left hand for parrying is not allowed

41 Fencers must fight on until stopped by the judges upon which they will remain steady until it is decided whether the hit is to be counted or not The fencers must then return to their own ground and take a fresh engagement A hit given after the judges have stopped the play does not count in any case

SWORD (DISMOUNTED) *vs* BAYONET, BAYONET *vs* BAYONET, AND SINGLE STICK

42. The court for single stick and all others dismounted competitions (except fencing) shall be 24 feet by 24 feet

The rules of single-stick are the same as those of Fencing, except that cuts and thrusts given on any part are counted good

A competitor retiring beyond the limit fixed will forfeit a point to his opponent

43 When a sabre or single stick player touches his opponent by breaking his guard it is not counted a hit

44 The rules of Sword (dismounted) *versus* Bayonet and Bayonet *versus* Bayonet are the same as those of Fencing, except, that hits on any part are counted good, and that the swordsman may lay hold of his adversary's rifle (but not the bayonet or button) and that a disarm counts (This is governed by paris 24 and 26 Combats)

45 Butt end of the rifle not to be used and the rifle to be held strictly as directed in Bayonet Exercise, *etc*, right hand not to quit the small of the Butt

TENT-PEGGING

46 The dimensions of peg will be —length 12 inches (subject to nature of ground), width 3 inches, length above ground, 6 inches

47 The horse must be at full speed when the peg is struck or taken The horse is not to be struck with the lance to increase the speed

48 The spear must either have the regulation point, or the point approved of by the Committee

49 Point of Lance to be kept up until 15 yards from peg The peg must be carried 30 yards or a "take" cannot be claimed

50 Marks as follows —Strike ■ move 4, take 6, with liberty to judges to give two points extra for style, or to deduct points if pace is insufficient This will be settled at once *Two runs*

51. The following Memorandum for conducting Tent-Pegging in India is printed here for the information of competitors. These rules were originally intended for Bengal Cavalry as a substitute, for the most part, of any regular system of equitation, to give the men confidence, a *firm seat*, and a correct hand and *eye*. The great essential in this performance is *style*.

"The seat from the hips downwards should be immovable, the body from the hips upwards bent well down to the right, rather than forward, its sway being well supported by the left leg, the handling of the Lance easy and free from stiffness, the right arm slightly bent, the hand just in front of the instep, the back of the hand inclined downwards and the thumb along the Lance, the Lance to be kept close to the ground. Any jobbing at the peg striking it with the Lance sloping from above downwards, or lengthening of the Lance beyond the balance, must be avoided. A firm seat is indispensable for good tent-pegging. Riding at the peg in an upright posture is not tent-pegging."

52. A competitor dropping his weapon is thereby disqualified from the competition, and, if one of a section, the whole section is disqualified.

LINE-CUTTING.

53. The lines will be placed on the running tracks on galleys, each line the height of a mounted man's shoulder. The galleys to be 15 yards apart. For the first line, cut "one" to the right must be used; for the second, cut "two" to the right, both cuts to be correctly made; the sword must be carried at the "right engage" up to a point 15 yards short of the first line. The horse is not to be struck with the sword.

"The cuts to be used by each competitor, unless the cuts are properly laid for."

54. Marks.—Each line, 3, with liberty to judges to give two points extra for style, or deduct points if pace is insufficient. This will be settled at once. Two runs.

Army Order 9, dated 1st January 1892—*Revised edition of Volume II, "Cavalry Drill."*

A revised edition of Volume II, of "Cavalry Drill," has been approved and will be issued to all concerned

2 In any case where these Regulations are at variance with the Regulations for the instructions and movements of Cavalry, issued with General Order 107 of 1887, the latter Regulations are to be considered as superseded by the corresponding portions of the volume now issued.

321 In continuation of Army Orders Nos 145, 210 and 247 of 1892, it is notified for information that with reference to clause (e) of Army Order No 145 of 1892, Battalions not at the Centre will send only one Native Officer to the Centre for the annual training of Reservists if the active reserve of the Battalion is under 80 men, and none if that reserve be less than 20 strong.

2 As separate accounts will now be submitted for the reserve, the "Statement of disbursement" in Appendix D, and the Muster Roll, Appendix G, of the Reserve Regulations are cancelled and forms of "General state of accounts" and "Muster Roll" substituted. These forms will be assigned M. A. Forms Nos 810 and 812 respectively, and will be supplied gratis on application to the Contractor for Printing Government of India Stock Forms.

3 The form of Batta Bill given in Appendix F of the Reserve Regulations is also cancelled

4 Should it so happen that there is no Regiment of the linked Battalion quartered at the Regimental Centre, the Reservists must be trained, and all correspondence conducted by the Battalion to which they belong, the office allowance being drawn by each Battalion under para 61, Reserve Regulations

5 If, however, a Regiment not having a linked Battalion at the Centre is so situated (e.g., at Aden) as to render it manifestly impossible for its Reservists to join it for training, application should be made to the Adjutant-General in sufficient time to admit of orders as to the training being issued.

3 The experiment of manœuvring the troops some hours after sunrise instead of in the early morning is proved to have answered His Excellency the Commander in Chief's expectations in the most satisfactory manner, not one case of sunstroke amongst the Europeans and only one amongst Native troops being reported. This trial of the young soldiers who had arrived in the drafts from England only a month or two before the manœuvres were held, appears in their case to be a practical refutation of allegations sometimes made, that the young soldier is physically inefficient

of the accompanying
the same 1891-92
three Presidencies,

Nevertheless, sufficient data are forthcoming to prove that the British Army has fully maintained its position, whilst in the Native Army a considerable advance is again discernible.

To enter somewhat more closely into particulars, the following are the most obvious characteristics of the practices performed last season.—

British Corps—The new course constitutes a comparatively severe test of individual marksmanship, but the majority of corps have attained to a very satisfactory standard.

Musketry drill and instruction however, require very careful attention. Musketry

Native Corps—Shew more and more the good results of close and constant supervision by British Officers and of the very careful preliminary training generally imparted to recruits

The shooting
tion, control, and
different corps,
advance on results obtained in any previous season

corps do not stand as high on the list as they otherwise would do had they shot on more favorable ranges

*Adjutant-General's Office, Head-Quarters Poona,
12th August 1892*

411 With reference to Section 17, Army Regulations, India, Vol VI, General Officers Commanding Districts will assemble Invaliding Medical Boards at the several stations within their Command twice during the Trooping Season, the first early in September and the second early in January (a special board being held at the end of February, if necessary), for the purpose of examining such Soldiers of Her Majesty's British Forces as may be deemed fit subjects to be invalided. The Principal Medical Officer of the District will sit as President on every Invaliding Board.

2. Corps marching in relief before the assembly of the second Invaliding Board will take with them all invalids capable of travelling, if proceeding to stations on the line of railway nearer to the port of embarkation, but if otherwise, or moving to more distant stations, they will leave them behind.

3. The invalids allotted to each Troop-ship should be carefully examined immediately before the date fixed for embarkation, and such men as may be found unfit to proceed should be detained at the Depot and sent Home in later Troop-ships.

4. Medical Boards when invaliding men who have been enlisted in India and are not desirous of leaving the country, will refrain from recommending them to be sent to England but Soldiers enlisted in a particular Colony and who desire to return to the same, may be recommended accordingly.

5. Medical Officers will prepare the Return of Invalids (Army Form B 172), in duplicate, to be signed by the Commanding Officer and Medical Officer in charge of the Station Hospital, and afterwards countersigned by the Principal Medical Officer of the District and the Officer Commanding the Station.

One copy of the Return will be handed over to the Medical Officer proceeding in charge of the invalids to Doolah or Katachi Depôt. He will be careful to enter therein any changes that occur during the journey.

† Men whose state of health would make it hazardous or impossible to forward them to Doolah, should be sent to Bombay and attached to the Colaba Sanatorium until required to embark, arrangements being made by the General Officer Commanding Bombay District, in consultation with General Officers Commanding Districts concerned to ensure this order being carried out.

This copy will be delivered to the Medical Officer of the Depot, and him retained as a record so long as it may be considered necessary.

The duplicate copy will be transferred by the President of the Invaliding Board to Officers Commanding Corps for their information, for despatch by post to Deolih or Karachi, as directed in the "Regulations for the Discharge of Soldiers of the British Forces serving India." This copy will be retained by the Commandant of the Depot until the close of the troopship season, and afterwards transferred to the Principal Medical Officer, H. M. s Forces in Bombay, Poona, record in his office.

6. The Commandant, Deolih or Karachi Depôt, will cause continuous Nominal Rolls of Invalids, *in duplicate*, on Army Form B 1 to be made out for each troopship, one set for men of the Royal Artillery and one set for all other troops, care being taken that they be corrected up to the latest moment. These Rolls will be handed to the Medical Officer proceeding in charge of the Troopship, for delivery to the Principal Medical Officer at Netley, any casualty *en route* being recorded in the columns set apart for that purpose, one copy will ultimately be returned to India, showing the final disposal of every invalid embarked. These Rolls are the only nominal lists of invalids required to be sent to England from India.

7. A Detailed Medical History (Army Form B 179), for every invalid to England will be prepared in duplicate,† by the Medical Officer in charge and submitted to the Station Invaliding Board, who will ascertain that the information under each heading is complete, and after filling in the remarks and finding, will countersign the form.

One copy together with the Medical History Sheet, Army Form B 173, will be handed to the Medical Officer proceeding in charge of the party to Deolih or Karachi for transfer to the Medical Officer of the Depot. These documents will be afterwards entrusted to the Medical Officer proceeding to England in charge of the Troopship, and finally be handed over by him to the Principal Medical Officer Netley, along with the Nominal Rolls alluded to in para. 6.

The duplicate copy will be transferred to Officers Commanding Corps and attached to the list of invalids. In the case of invalids who may elect to proceed to England, the documents should be sent to the Depot.

8. As soon as Invaliding Medical Boards have completed their sittings, the Principal Medical Officer of the District will prepare, in duplicate, a summary return of invalids (India Army Form 62), which he will forward to the General Officer Commanding the District, for early despatch to the General Officer Commanding Bombay or Sind District, as the case may be, showing separately by Corps the actual number of invalids for whom passage to England will be required.

† In the case of invalids Army Forms B 172 B 173 and Army Hospital Form 62 each to be prepared in duplicate.

9 Immediately the decision of the several Invaliding Boards shall have been communicated as directed in paragraph 3, Commanding Officers will cause the Proceedings on Discharge to be prepared in accordance with the instructions contained in the Regulations for Discharge of British Soldiers serving in India.

10 The documents of Time-expired men free discharged, and Soldiers proceeding to join Army Reserve will also be prepared in time for Karachi Depot to which they stand allotted. By C.O.s the actual number of Time-expired men, free discharged and Soldiers proceeding to join the Army Reserve for whom passage to England will be required, should be forwarded by General Officer Commanding Districts to the General Officer Commanding Bombay or Sind District, as soon as possible.

11 The Officers upon whom the responsibility for preparing the prescribed discharge and other papers devolves, will cause each document to be carefully examined with the view of ascertaining that the whole of the papers are duly signed and otherwise correct in every particular, and it should be remembered that unless the documents are received at the Depot complete, the men will be detained.

12 The General or other Officer Commanding at each station (or, in his absence, the next senior Officer present) will personally inspect the men at least a week before they leave the station, and ascertain whether they have any unadjusted claims upon the Service and if so, careful enquiry must be made into the merits of each case, which should, if possible, be settled before the men leave the station. (File Discharge Regulations.)

Inspecting Officers will at the same time examine the men's Pocket Ledgers, in view to ascertain that all necessary entries (especially those relating to Clothing and Savings Bank Deposits) have been made therein up to date. Care should also be taken that the claims for compensation for clothing, &c., of men detached from Regimental Headquarters are settled before the men leave the station.

13. On completion of the inspection, the Invalids, Time expired men, &c., will proceed to join the Depot at Deolali or Karachi so as to be ready for embarkation in the Troop ship to which they have been allotted, all necessary Staff appointments being made in conformity with the rules laid down in the Army Regulations, India, Vol. I, Part I. Officers of the British Service under the rank of Major who are proceeding on duty to England, will be sent to Karachi under the orders of the General Officer Commanding and the Adjutant-General. (See also para 1910, Army Regulations, volume II.)

14. The whole of these Detachments will, while *en route* to, and during their stay at, the Colaba, Karachi, or Deolali Depôt, be paraded for Kit Inspection *once a week*, under the orders of their respective Officers, who are hereby directed to see that every man (sick and on duty excepted) is actually mustered and present on those occasions, and that all deficiencies are made good at the earliest practicable date, in accordance with the regulations and usages of the Service. In respect of the above periodical inspections, the Kits of Detachments will be inspected as soon as possible after arrival at the Depot.

15. Officers in charge of parties are also to be instructed that the non-effective accounts of men who die *en route* to the ports are to be handed to the Paymaster of the Depot on arrival, and not to be forwarded to Paymasters of Corps.

The discharge documents of the Soldiers will be retained at the Embarkation Depôts until the close of the season, when, if the men shall not in the meantime have joined the Depôts, the papers are to be returned by posts (in registered packets) to the Corps concerned. In keeping the men's accounts, Officers in charge should adopt the established form of *Pay Sheet*.

16. Officers Commanding will, a fortnight prior to the embarkation of each detail, notify to the Officers named in para 62 of the Regulations for discharge the names of all men sent to the port of embarkation for passage to England.

17. The foregoing instructions are to be held to apply, as far as practicable to the troops serving at Aden, and the Invalids and Time-expired men &c., of that District must be ready to embark immediately on arrival of the Troop ship to which they are allotted, it being clearly understood that the duties which devolve on the Commandant Deolali Depot on occasion of embarkation must, at Aden, be performed respectively by the Officer Commanding the Royal Artillery and by the Officer Commanding the British Infantry Battalion serving at that station.

A nominal roll should be forwarded to the Adjutant General's Office, Invalids left at Aden on the departure of the Troop ship who are unable to bear the rapid change to the winter climate of England. Complete Invalid and discharge documents should be left behind with all such men.

18. With regard to Invalids and Time-expired men of other pressencies embarking at Bombay or Karachi the Homeward Troop ship programme of 1892-93, and the Orders will be observed at Bombay and Sind Districts, and Depôts.

19. Nominal Rolls of Military Prisoners and Invalids awaiting embarkation, showing whether attendants are required for them, to be transmitted to the General Officer Commanding Bombay or Sind District as soon as possible, but the men are not to

be sent from their stations until intimation is received from those Officers of the dates on which they are to arrive for embarkation. The documents of Insanes are, however, to be sent to the Commandant of the Colaba or Karachi Depôt, and those of Prisoners to the Deolali or Karachi Depôt, seven days before embarkation, to admit of their being examined. (Vide para. 21 of the Regulations for Discharge of British Soldiers in India.)

759 The accounts of the Queen's Military Widows' Fund for 1891 are published for general information

The general statement of accounts was Rs 46,195 9 2 while the expenditure exceeded the income by Rs 18 0. This is the third year since the expenditure has exceeded the income, the Committee of Management, at their annual meeting in August 1891, proposed that the rates of subscription should be raised. A circular was accordingly issued, and with the consent of the general body of subscribers the rates of subscription were raised to what they were prior to the last reduction in 1889, namely —

An Officer in receipt of pay and allowances

of Rs 750 a month or more Rs 4 per mensem

„ of Rs 400 or more, but less

than Rs 750

Rs 3 „ „

„ of less than Rs 400

„ 2 „ „

These rates came into force on 1st January 1892

It is calculated that this measure will bring the Fund an additional Rs 6,000 a year.

The number of subscribers which at the end of 1889 stood at 712 has now risen to 850

The Committee also wish to draw attention to Rule X\I (a), latter part, which enables the widow of a deceased Officer (who dies in India) to draw maintenance allowance for six months according to the scale fixed, although the widow may have been out of India at the time of her husband's decease

to a fund which has such a good object in view. The subscription for each quarter is so low (Rs 1 per quarter) that it is regarded as a charitable contribution on their part. The Fund will accustom itself to their favour
